

I am requesting that the FCC not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Before the No Call List was established, we were receiving 4 or 5 telemarketing calls each night and often would not answer our phone in order to avoid dealing with telemarketers. Since joining the No Call List instituted by Attorney General Steve Carter, we receive ONE CALL OR LESS PER WEEK. Over one million people in Indiana have joined our Attorney General's telephone privacy list. We enjoy our new-found privacy and WE DO NOT WISH TO LOSE IT. Thank you.
